## SPECIFICATIONS

Irresistible, cool and sophisticated, the NET Relax is a fibre-glass resin armchair fitted with a soft fabric cushion in contrasting colours. Decorated with a pattern of square slots which are distributed evenly over the surface of the armchair and are the result of a complex 3D modelling effort along with milling.

The body therefore appears matt, slightly rounded and extremely pleasant to touch. A sophisticated ribboned perimeter encourages you to rest your arms defining comfort that flows down to the foot of the chair. An original and extensive range of colours are available with €~Salice€™ in range for both Net and Net Relax.

It is a stackable mono bloc chair made from resin in a matt finish.

Chair colours: Tortora (dove-grey), Corallo (coral), Senape (mustard), Bianco (white), Antracite (anthracite) and Salice (green).

Optional Cushion colours: Rosa Venezia (venice rose), Ocra Gialla (yellow ocher), Rosso Sinopia (red sinopia), Turchese (turquoise), Grigio (grey), Blu Lapis (blue lapis) & Terra D€™ombra (umber).

Made in Italy from a high quality polypropylene resin that is UV resistant and characterised by a strong resistance to atmospheric pollutants: non toxic and antistatic.

The recyclable resin trademark guarantees that each product is made with 100% recyclable resin and can be crushed and completely recycled without producing waste or damaging the environment.

This resin armchair extends Nardi's trend of sophisticated relaxation, since it is suitable for both outdoor and indoor use and it is available in an appealing range of colours, which also plays on chiaro-scuro (light and dark) effects created by the pattern and by the fabric chosen for the padded parts.

NET Relax is completely Made in Italy, from concept design to the creation of moulds and to the end of production. It is stackable up to 10 pieces and does not require any particular maintenance work and it is 100% recyclable.
